Executive Summary

There were two Tasks we had to complete. The first task was to find out the last name of the woman who owned the house before Joseph N. Wilson purchased it. Using this information a key is constructed, KEY003.

The second task was to find the name of the music venue in which the house served as while his son lived there. Using this information a key is then constructed, KEY004.

Attack Narrative

To begin this assignment I searched up Professor Wilson on the UF Directory. <https://www.cise.ufl.edu/wilson-joseph/>

Using this information I found that Professor Wilson went to Florida State University as an Undergraduate. I then searched on Google the following terms: "Joseph N Wilson Tallahassee Florida James Esry."

This yielded: <https://www.beenverified.com/people/joseph-wilson/fl/tallahassee/>

Where I then looked up 901 Buena Vista Dr on the Leon County Property Appraiser [<https://www.leonpa.org/>]. Using this data I found that The house was owned by Ethel D. Ramsey before it was sold to Wilson. I then constructed the key..

KEY003:SuZEnZMxliekAe9Wabxw9A==

For the second task, I searched the following on Google: "901 Buena Vista Dr Tallahassee Florida Music Venue." This brought several links with the music venue named TV Land. [<http://www.findglocal.com/US/Tallahassee/812401878770045/TV-Land-Tallahassee>]. I confirmed the booking dates and they were all before the sell date (8/2016) to James Esry. I was certain this had to be the venue. So I then constructed the key:
